Several School Elections In Progress In County

June 13, 1966, there is to be usual annual school election with the Frederic Community School District and the Grayling School District to elect members to the board of trustees each school district. At the time a permanent board of trustees is to be chosen for the district (Crawford, Ogemaw, and Roscommon counties) place the present interim temporary board. See story elsewhere in this issue.

June 20th, the qualified registrars in both the Frederic and Grayling school districts are to go to the polls to register their approval or disapproval on a proposed consolidation (merger) of two school districts in compliance with Public Act No. 289 of 1963 Michigan Legislature. The merger of the two school districts is approved in the June election, it will mean that the districts will lose their identity, the boards will be declared void, all millage for school operation will be voided and another set. In the meantime, an interim board will be named by the COOR District Board to operate newly consolidated district until a new board is elected.

Look-Out The Leprechauns Are Coming??

That's right, and they'll be here on Tuesday, April 26 in the multi-purpose room of the elementary school. For that is the night that the Junior High Choir will stage their musical "Three Pink Leprechauns". This delightful three act comedy musical will bring a little bit of Ireland right here to Grayling, and you're all invited to attend. Tickets can be purchased from any Junior High Choir member for the show which will be presented one night only. Doors are open at 7:15 p. m. with the curtain going up at 8:00.

Everyone in the audience will thrill as Kathleen Magee (Becky Kangas) tries to catch one of three pink leprechauns (Jeff Fowler, John Peters and Chuck Bonamie) which her Granny (Joanne Welsh) has told her about. But does she catch one? And how does she eventually capture the heart of Brian the Squire's son (Billy Hatfield) in the end?

And how does her father, roaring Mike Magee (Jim Corlew) take to the whole thing? Well you will just have to come and see for yourself. The entire story will unfold before your eyes with rib-tickling dialogue and heart-warming music. This is one evening you won't want to miss. So plan now to attend, and remember, WATCH OUT, for on Tuesday evening the Leprechauns will be in town and these pesky little rascals dearly love to prank. The safest place would be the elementary school multi-purpose room. And yes, remember the time, 8:00 is curtain time and there are no reserved seats, so come early and see if you too can capture yourself a leprechaun.

Warning Issued On Trash Burning Care

4-H Youngsters To Exhibit

Crawford County 4-H Achievement Day will be held at the Grayling Elementary School on Saturday, April 23rd. This will be one of the largest Achievement Days in this county. Over 250 youngsters have participated in 4-H projects this past year, and Achievement Day is their opportunity to show what they have accomplished.

4-H Clubs have been working on many projects including Basic Conservation Forestry, Basic Conservation Wildlife, Archery, Rifle Safety, Handicraft, Clothing and Knitting.

The public and parents are invited to view the exhibit displays at the Elementary School starting at 1 p. m. The program will begin at 2 p. m. and will include a dress revue, demonstrations and recognition.

Appreciation is extended to Bear Archery Company for furnishing twenty complete archery sets and ample arrows for the Archery Group led by Mrs. Staley.

It is only through the cooperation of volunteer adult leaders that a

4-H program can successfully operate. Crawford County should be proud of the following 4-H leaders: Mrs. John Rolf, County 4-H Chairman, Mrs. Kip Papendick, Mrs. Franz Kersch, Mrs. Joseph Tyron, Mrs. Gerald McEvers, Mrs. Roy Boone, Mrs. Leonard Jensen, Miss Nancy Dykema, Mrs. John Wilcox, Mrs. Edward Kueharch, Mrs. James Duley, Mrs. Robert Holzman, Mrs. Charles Staley, Mr. Kip Papendick, Mr. Paul Deni, Mr. Carl Hatfield, Mr. Howard Schwalbach, Mr. Kenneth Zielke, Miss Margaret Douglas, Mrs. Robert Rovee, Mrs. Kenneth Ashton, Miss Ruth Yuhas, Mrs. Keith Reed and Mrs. Marvel Zimmerman. These are the people who have made 1965-66 a successful 4-H year in Crawford County.

We hope to have an even bigger program next year and this depends on leadership. We urge anyone interested in 4-H to attend. Come out to the Grayling Elementary School and see what the youngsters have accomplished.

CANCER CRUSADE APRIL 18-25

Close to fifty of the seventy some Cancer Crusade volunteers and directors of the Crawford County Unit of the American Cancer Society were present at a one o'clock kick-off luncheon held on Monday afternoon, April 18th at Arrowhead Inn to receive their instructions and materials for the one week drive for funds and educational material distribution. The luncheon was sponsored by the Grayling State Bank.

Mrs. B. E. Henig, county chairman, welcomed the guests. The Rev. Donald Beyer gave the invocation.

Maynard Reghi, District Representative of the Society, presented pins to volunteers who had served five years or more. Recipients of these were Mrs. Cyril Houle, Mrs. Don Millikin, Mrs. Ben Garland, Mrs. Henig made mention of the exceptionally large area that Mrs. Garland calls upon. Mrs. Richard Lovely, who was unable to be present, had also earned a pin. It was mentioned that Mrs. Howard Mead has personally called on over fifty-five homes in South Branch Township during the past two crusades. Previously this area was not covered. Her efforts are greatly appreciated.

Plaques were presented to members of the Board of Directors of the local society who had served five years and over, namely John Alef, Dr. B. E. Henig and Mrs. Robert Strong. Mrs. Eli Beery, who has done an exceptional job for five years as educational director was presented with the Cancer Crusade Symbol sword. Mrs. Henig, who has been a very efficient county chairman for over five years, received a bracelet charm for her efforts.

Mrs. Henig expressed her appreciation to Mrs. Bruce Carlson who is drive chairman for the second year and her volunteers who make the project possible. Dr. B. E. Henig was presented and spoke on "Cancer Quackery." He stated that only by education can cancer quackery be prevented. Many, many alleged cures for cancer, Quacks will prepare these "magic" potions but the medical profession is aghast that people will subject themselves to the treatments. He related that in Detroit a cure-all was peddled successfully by a female doctor, very profitably. She was convicted of fraud when it was learned that the ingredients of the "cure" were birch ashes and tap water.

The desperate and naive, who are usually the victims of these charlatans, have spent ten million dollars for these worthless treatments according to Dr. Henig. He advised the only cure for cancer is early diagnosis, correct diagnosis and speedy treatment.

He stated that the first case of cancer quackery recorded was in 1748 when a Mrs. Johnson was given an award by Gen. Washington for her cancer cure, a poultice

made of garden sorrel and persimmon bark. He concluded by saying "Quacks are for ducks."

Mrs. Harry McEvers gave a report on local expenditures of the cancer society, and some of the new loan closet supplies purchased or ordered.

Mrs. Beery reported on the many educational films she has or will show and with the help of See CANCER CRUSADE Page 8

G.H.S. In State Forensic Finals At Ann Arbor

On Saturday, April 23, 1966, the State Championship in High School Forensics will be held at the University of Michigan, Ann Arbor. Competing in the state finals will be the winners in the 18 Regional Contests. Each Region will be represented by two competitors, giving a total of 36 contestants in each of the forensic events.

Grayling High School will be competing in the State Forensic Championship for the first time in the history of the local school system. Vicki Wells, with her oration, "We Are All Animals," will compete in Original Oratory. Gail Hunter will be entered in the Declaration Contest, delivering her speech, "Integration — A Negro's Definition." The third local contestant will be Robert Ashman, who will compete in Extemporaneous Speech. In this contest each competitor must be prepared to speak on any event in the state, national, or international news. One hour before the contest each extempore speaker will draw a topic on which he must then prepare a six minute address.

In District, Regional and State Finals of Forensics, competition is not divided into separate classes. All schools (classes A, B, C and D) compete together. Thus, competition is expected to once again be extremely close. Last year Class A Battle Creek Central High School won first place in both original oratory and Extempore Speech. Class A Dearborn High School won first place in Declaration.

All finalists in the state forensic tournament will receive medals which signify their outstanding achievement in competing in the State Finals. Trophies will be awarded to schools winning first, second or third place in any of the forensic events.

High school competition in forensics is conducted through the Michigan High School Forensic Association. James R. Irwin, University of Michigan, is the official State Manager of the Association.

Grayling Sports Park To Add Steam Train Rides

A real steam train ride will be available approximately on May 20th at Grayling's Recreation Area now to be known as Bear Mountain. A mile long railbed is now under construction.

Another attraction to add to the planned complete year around recreation at the Grayling Recreation Area, now known as Bear Mountain, was announced this week by President Lewis Stillwagon. A real steam train manufactured in Pennsylvania will be steaming around the park area by mid-May.

President Stillwagon stated that the addition of this fine new drawing card at the park was made possible by Mr. and Mrs. L. A. Barkley of the Manistee River.

The roadbed, approximately a mile in length, is now under construction by the Millikin Construction Company. The train track will run near the new Polyhedron Building and along the shore of the park's lake. A depot will serve the train, which will be known as Bear Mountain's Little Smoky.

Plans now call for the operation of the train ride on a 7 day a week basis from about 10 a. m. to 10 p. m. each day. Year around running of the steam train is planned but snow conditions in the winter might alter these plans, Stillwagon stated.

The train is a scaled down model of an authentic 1865 steam locomotive and is manufactured by the Crown Metal Products Company of Pennsylvania. The ride of the train is being designed both for amusement and a way to get an overall view of the park area.

The planned depot, also an authentic model of the old time train station, will be quite an attraction in itself, Stillwagon said. This is but another of many additions planned at the new Bear Mountain to increase the interest in the area and to make possible a year around recreation area.

Plan Two County Conservation Field Day

A two county Conservation Field Day will be held on Monday, April 25th for the 5th and 6th grade students in Crawford and Oscoda Counties. The tour has been organized by the Oscoda-Crawford Cooperative Extension Service in cooperation with the Michigan Department of Conservation, United States Forest Service, and Oscoda and Crawford County Schools.

Stops on the tour will include commercial logging operations, plantations, timber stand improvement areas, fish management, wildlife management, and a recreation stop.

Foresters, Game Biologists, Fish Biologists, and Extension Natural Resource Agents will conduct the various demonstration stops.

The school classes will be divided into four groups and the resource people will conduct demonstrations throughout the day. The entire group of students will gather at Knepp Lake National Forest Campground for a lunch stop and tree planting demonstration.

Local Taxpayers To Fork Up \$1,093,000

NEW YORK—Residents of Crawford County are getting sharp reminder, as they ready themselves for the April 15th deadline, of the huge bite that the Government is taking out of their earnings.

Last year they turned in approximately \$1,004,000 in personal income taxes to the Federal coffers. And this year, because of the improved employment situation and the higher average earnings per family, they will be paying even more than that, according to the Administration's expectations. Just how much of an increase is being counted on, in general, is indicated in the current budget. Nationally, it calls for \$51.4 billion in individual income taxes, or \$2.6 billion more than in the previous year.

Crawford County's share of the tax load was determined by an unofficial breakdown of the returns received from the State of Michigan as a whole. The statewide total was \$2,510,000,000, according to the Treasury Department, including what was collected via withholding.

It shows that local residents contributed an estimated 0.04 per cent of this state total, or \$1,004,000.

Their contribution this April, reflecting the income gains during the past year, is expected to be in the neighborhood of \$1,093,000, or about \$89,000 more than before.

Large as this amount is, it may be the smallest sum they will be called upon to pay, on an annual basis, for some time to come.

The indications from Washington are that taxes will have to go up in the not-distant future to meet the various financial pressures with which the country is contending.

However, by virtue of the new tax withholding bill just passed by Congress, the financial jolt that comes on April 15th each year will be practically eliminated in the future.

A graduated withholding rate, ranging from 14 percent to 30 percent, depending on income, will replace the present flat 14-per cent rate beginning May 1st.

For those in the middle and upper brackets, it will mean less money to spend during the year but, by the same token, fewer headaches on April 15th.

Cost of Inflation In County, \$173,000

(Special to the Avalanche)

NEW YORK—What has been the dollars and cents effect of inflation on the average Crawford County family in the past year? How much has the rising cost of living reduced purchasing power locally?

On the strength of recent economic studies, it appears that local families had a loss in the year, attributable to inflation, of about \$115 on the average.

That is the amount of additional goods and services they would have been able to buy had prices remained the same as they were in 1964.

The estimate is based on data from the Bureau of Labor Statistics and on figures presented before the Joint Economic Committee of Congress.

They show that the consumer dollar was worth about 2 cents less last year than in 1964.

That was the average amount of erosion. With respect to some goods and services, the change was less than that and, as to other items, more.

The major change was in the cost of food, which rose over 4.5 per cent in the year. Transportation costs went up 4 per cent and services, 2.5 per cent.

The \$115 loss per family in Crawford County represents 2 per cent of the net income locally, based on the latest figures from Sales Management, which show an average income per household of \$5,763, after taxes.

In other families, the loss in purchasing power was more or less than this average, in proportion to their incomes.

At the \$4,000 level it came to \$80, at \$7,000 to \$140, at \$11,000 to \$220 and at \$15,000 to \$300.

The total cost of inflation in the past year, for the local community as a whole, amounted to \$173,000.

Most families, thanks to rising incomes, have been able to take this degree of inflation in stride. For those who are living on pensions or other fixed incomes, however, it presents a hardship.

Most economists feel that a tax rise is necessary to halt the upward wage-price spiral. The Administration hopes to avoid such a step because it would put a damper on the economy.

Barring unforeseen developments, it is generally believed, such action will have to be taken in the months ahead.

Inquiries To Be Answered . . .

As the old adage tells us, "Nothing is constant but change". And, nowadays, changes of vast significance in and do take place in a remarkably brief period of time.

Not so very long ago, it will be remembered, the lies in the view of most people, were bright. The economy was setting record after record. The federal government had effected tax reductions of substantial size and more were expected. Prices had been relatively stable for years, and no one seemed to fear any serious wave of inflation. There was even talk of a balanced federal budget in the foreseeable future. We were involved in Viet Nam, but only on a token scale, with a small number of U. S. advisors aiding the South Vietnamese military. And various people in influential positions were forecasting the war would be successfully concluded fairly soon.

It just isn't like that any more. The economy, of course, is still booming along. But about everything else has changed. Take, for example, the matter of taxes. The Administration's budget formally anticipates a deficit of only \$1.8 billion. It no one now thinks that this is anything but an excessively rosy picture. Swelling domestic expenditures, plus costs of the Viet Nam war, have totally altered the situation. And, we may have seen only the beginning of these costs. The President has just signed a bill authorizing a supplementary appropriation of \$4.8 billion for military purposes, primarily in Viet Nam. More heavy increases of this nature seem certain. The level of U. S. troops in Viet Nam, according to General Westmoreland, the commander, may have to go to 400,000. This event, in the view of most authorities, will make tax increases inevitable.

Then there is inflation. Just about everyone is talking about it and fearing it. Next to Viet Nam, it seems to trouble more Americans than any other problem. Local taxes, which have steadily risen just about everywhere, are also much in the public eye. A survey made by U. S. News & World Report and published in a recent issue of the magazine, finds that, "The mood of people in America today is one of unhappiness in the midst of prosperity." And it adds, "High prices are irking almost everybody in this nation. And a fear is growing that prices will go still higher—leading to inflation that will eat up savings."

In another recent issue, U. S. News interviewed 11

of the country's top economists to get their views on inflation. Most of them, it reports, expressed concern over the inflationary pressures. Many called for strong governmental action to stem the tide—such as tax increases and reductions in nondefense spending.

This attitude finds its reflections in Congress. More and more members are coming to the belief that such spending, particularly of a welfare nature, must be substantially reduced. Whether this will become a majority view remains to be seen—it isn't now. But the worries are there, and they constantly deepen. And there are worries about what the mood of the people will bring about in this year's congressional elections.

Can the war in Viet Nam be won in anything resembling an acceptable period of time? What will the price indicators show as the months and years wear on? What will the tax picture be like a few months from now? These are as yet unanswered questions.

Do you have \$300.00 to burn?

Heard all the claims about conversion to gas heat? Let's look at the facts. Fact one: you can "burn up" up to \$300 and more when you install a gas furnace, and get no advantage in return. Fact 2: you get no guarantee that you'll save fuel costs for the life of the furnace. Fact 3: if invested or banked, your \$300 could be

earning from \$10 to \$25 yearly. Need better heating? You're better off to remodel your present oil heat system. For example, our Amoco Sta-Warm Oil Burner costs less than \$100, yet can increase heating efficiency as much as 40%. Before you "burn up" \$300 or more, call us for the facts and a free estimate.

How long has it been since you had a close one?

Quite often when you see an accident or pass the scene of one, you'll tell your friends about it later. Usually you'll add how you had a "close one" last week. You might end thinking, "It could have been me."

Complete insurance coverage is vital... call us today for peace of mind.

V. F. W. NEWS
By Wm. Higbee

We are making great progress in forming a V. F. W. Post in this community. We also would like to see a lot more of the eligible Veterans turn out for the meetings. The more we can get into this the better our Vets will be, more in the organization the more we will have in Washington, D. C. In return it will help get Veterans bills through enabling each and every one of us to benefit sooner or later.

The National Home is at Eaton Rapids, Mich., which is for our dependent children and wives. They have a very nice place there. I cannot begin to say anything about it as it would take too much space in the paper, but as members or a guest of a member I'd suggest you try to see it soon.

We will have our next meeting on Sunday, April 24, at 3 p. m., in the basement of the Grayling Moose Lodge.

Would like to extend our, "Sincere Thanks to the Moose" for the use of the basement, as there are just too many to meet at anyone's house.

Don't forget that at the next meeting we are going to have a lunch and refreshments. So, all of you eligible Vets come on in.

Game Man Wins Conservation Award

LANSING — John D. Byelich, Conservation Department regional game biologist for the northern half of Lower Michigan, has been selected to receive a 1966 American Motors Conservation Award.

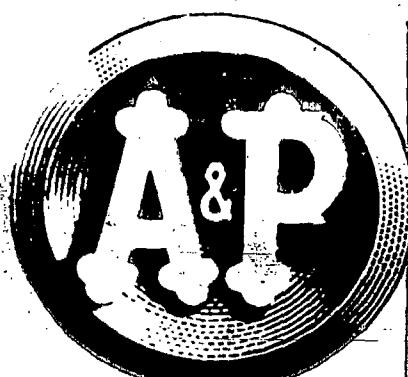

Byelich, a veteran of game work in Michigan since 1945, is among 21 career workers and non-professionals honored by American Motors for their "outstanding efforts in conservation."

He was cited jointly with Robert E. Radtke of the U. S. Forest Service for adapting from quarry operations a low-cost blasting technique to improve waterfowl habitat in marshes.

Byelich and Radtke refined the method of using treated ammonium nitrate, a common fertilizer much cheaper than dynamite, as an explosive to create potholes for waterfowl nesting and brood production.

In being named winners of this year's AMC Award, the two men also drew recognition for the important roles they played in establishing Kirtland's warbler management areas on state lands in northern Michigan.

Some habits
are hard to break.

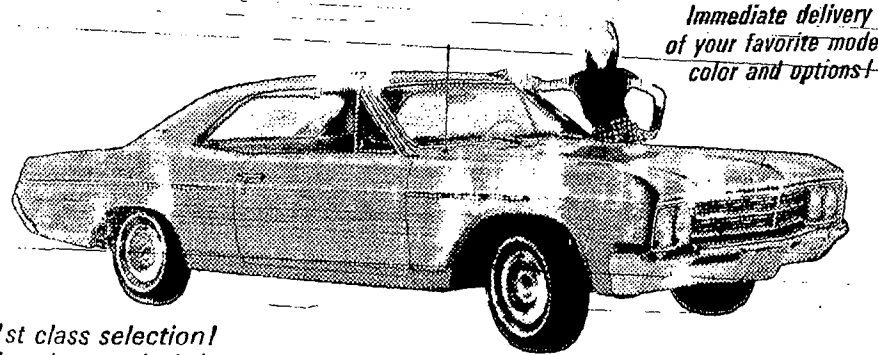

Like drying clothes outdoors. But most of the things you hear about fresh air-drying are myth. Because a gas dryer dries your clothes softer, cleaner—and just as sweet smelling. Without exposing them to harsh winds or the dust that's in the air.

A gas dryer does the job when fresh air can't. At midnight. Or in a rainstorm. We can't claim that gas, like air, is free. But you can do five loads in a gas dryer for the cost of doing one in the other kind.

See the latest gas dryer models now on display at your dealer or Michigan Consolidated Gas Company showroom. Or call us at 348-8581 in Grayling, and we'll have a Gas Company representative come out to your home and talk with you about the advantages of gas dryers. One of them is free installation. Inside.

G. H. S. ENGLISH STUDENTS WIN HONORS. ORIGINAL POETRY TO BE PUBLISHED

Grayling High School was notified this week that the original poems of nine of the English students of the Sophomore and Junior classes have been accepted for publication by the National Poetry Association. Engraved certificates signifying this honor have been received for Christopher Brown, Lynn Elsey, Gayle Feldhauser, Kathi Jo Kelley, Libby Kipp, Diann Klempp, Carla Jean Moshier, Karen Wedge and Mike Worden.

The student writers' work will be published in an anthology entitled "Young America Sings". The book, published by the National High School Poetry Press of Los Angeles, California, will be printed sometime next month and will be made available to the high school library, as well as the student writers and their instructor. The book is priced at \$2.00 per copy.

Nationwide competition for high

school students is held each year by the National High School Poetry Association. Students may enter poems on any subject of their choice, but the work must be a part of the regular English assignments. The purpose of the annual anthology is to encourage high school students to develop their writing talents to the fullest. The annual publication also gives the high school an opportunity to compare its efforts with that of other schools of all sizes throughout the United States. The original poems are judged by a staff of professional writers. Grayling High School extends congratulations to its successful student writers.

What Excise Tax
Cuts Will
Total Locally

NEW YORK—Residents of Craw-
ford County will still stand to
benefit this year to the extent of
\$14,000 from reductions in excise
taxes.

That is the amount they will
save even if Congress goes along
with the administration's request
to rescind, temporarily, the cuts
on telephone service and automo-
bile purchases that went into
effect a few weeks ago.

If Congress does not rescind
them, the savings will be in the
neighborhood of \$34,000 locally.

This would go part way—about
a third of the way—toward off-
setting the heavy increase in So-
cial Security taxes that will have
to be met this year.

Data has been released by the
Government showing the amount
of money it collected in excise
taxes in each state in the past
fiscal year and the amount it ex-
pects to get this year.

In each community, the collec-
tions are directly proportional to
the volume of business in its area.
From the State of Michigan as a
whole, a total of \$2,514,886,000 in
excise taxes was obtained in fiscal
1965, the U. S. Treasury Depart-
ment reports.

Crawford County's contribution
to this total came to approxima-
tely \$278,000.

Thanks to the reductions that
have just gone into effect, on the-
atre admissions, on electrical
equipment and on a wide variety
of other items, the tax load will
be considerably lighter this year.

Nationally, the new reductions
will total \$1.7 billion, the Govern-
ment estimates. If the cutbacks
are approved, however, it will be
\$700,000,000.

Under the bill passed by Con-
gress last May, further adjust-
ments will take place in each of
the next three years. By that
time, the overall cut will total
\$4.6 billion.

What the saving will amount to
for any individual family will de-
pend upon the amount it spends
per year for goods and services.

In Crawford County, where in-
comes have been on the rise and
spending is at a high level, the
saving will be correspondingly
high.

On the basis of the latest sales
figures for the local area, it will
amount to about \$63 per family,
on average, when the cuts are
fully in effect.

PIONEER LEAGUE NOTICE

Grayling Regional Chamber of Commerce

Memo: To the People of Crawford County.

From: Sal Truettner, President
Subject: Clean Up Campaign

April 15th to May 15th has been designated as Clean-Up, Paint-Up and Fix-Up time for Grayling. The Chamber is back of this program 100%. But backing a program is not enough. It is up to every individual in the city to get in there and help. The housing Commission has gone a long way in their job but they can not do it alone. Let's take a look at our neighborhood. Is there an eye-ore in it? Is there junk scattered around that could be carted off, old sheds that could come down, rubbish littering the yards? LISTEN, if you can't do this yourself, the city has offered free help and Mr. John Horton, a new business man in our community has offered the use of his truck for free. How about that? You can't beat that offer can you? Grayling recently won an award for a clean city. We all should be very proud of this. But there is still a lot more to be done. Look around your yard Mr. and Mrs. Citizen. Are you proud of what you see? If not, why not do something about it now? There is another big award coming up and Grayling would like to go after it. With your help we can get it. P. S. Jack Millikin has offered use of his trucks for clean up too.

Cancer Crusade

(Continued from Page One)

Mrs. William Kraus the promotional material that has been distributed.

Mrs. Carlson remarked that the crusade quota last year was \$1,093.63 and \$1,530.46 was raised. Only nine out of 83 counties in Michigan did better and only 7 out of 83 collected a higher per cent per capita. This year's goal is \$1,143 and it is hoped that this drive will be even more successful than last year's. She pointed out that one out of three cancer patients are presently being saved and through education one out of two can be, so seeing that everyone has access to the informative materials is just as important as receiving a donation.

In closing Mrs. Henig reminded those present that it has been a year since the 1965 Paps tests and also a year since the male check-up program.

— Fight cancer with a check-up and a check.

Garden Club To Meet

The Grayling Garden Club will meet in April on Thursday the 28th, starting at 7:30 p. m. in the Elementary School. President Earl Broadbent will be in charge, and seeds ordered at the last meeting will be here.

The first meeting of the year was held the last of March, with twenty persons present. Best varieties of seeds were discussed, and compost piles, and orders for seeds were made out. Tony Trudeau Jr. showed his roto-tiller equipment, and will demonstrate its use at a date to be announced later. President Broadbent issued an invitation for any interested persons to attend the club's meetings, as the organization offers information on gardening methods and equipment available for fixing gardens, and welcomes new ideas for discussion.

Neighbor To Call On You

During April a neighbor will visit you — a volunteer in the American Cancer Society's educational and fund-raising Crusade. The volunteer will come to your door with two vital messages: 1) How to best protect your life from cancer; 2) An appeal for much-needed funds. The Society seeks these funds not only to carry on at present levels but to enlarge its research, education and service programs and give us more effective control over cancer.

The cancer problem is big. It involves all of us. Cancer is impartial when it attacks. But the cancer problem is not at all as gloomy as it was a few years ago. Modern science and education have made great inroads on the disease. There are 1,400,000 Americans alive today, cured of cancer. A quarter of a century ago there were only 260,000.

Twenty years ago only one out of four stricken with the disease was saved. Now it is one out of three. It could be one out of two, that is, if all of us exercised necessary precautions. This is why education is so important — people must know the facts and be persuaded to act in time. Action requires a health checkup by a physician every year and being constantly on the alert to cancer's seven danger signals.

Research is most important. The lives of half of those who develop cancer depend on future research. The American Cancer Society needs more research funds to support more of the projects recommended by the distinguished scientists who are on its Research Advisory Council.

So when an American Cancer volunteer calls, "open your doors and your hearts" and your minds.
